

LINN

#### KEY FEATURES

- Standard Ethernet input for audio and control
- Plays FLAC (Free Lossless Audio Codec), WAV, MP3 & AIFF audio formats with up to 24-bit/192 kHz native sample rate
- Balanced and unbalanced analogue audio outputs
- No moving parts to generate vibration or noise
- Access and control your music collection using Linn-designed software which runs on a hand-held touchscreen PC
- Supports UPnP™ AV 1.0 for third-party control
- Accesses music from a networked hard-drive such as a dedicated network attached storage device (NAS)

Klimax DS is the first authentic hi-fi product to stream digital music over a standard home network, setting the benchmark as the highest performance digital music player in the world. Klimax DS is set to shape the future of music and how people listen to recorded music.

The Klimax DS supports the highest quality audio formats currently available, FLAC\* and WAV (as well as MP3 and AIFF), and plays all high quality audio sample rates and bit depths natively. Downloaded music and CDs are stored remotely on a secure, reliable, flexible and upgradeable NAS. SHOUTcast Internet radio is also supported.

The system architecture is such that the NAS can be placed remotely from the Klimax DS, leaving your Klimax System with no moving parts to generate vibration or noise, so the listening experience is pure and perfect.

Your music collection is accessed and controlled quickly and easily via a standard hand-held wireless touchscreen which runs a simple Linn-designed user interface for control of the entire Klimax System.

Klimax DS uses standard, open interfaces for audio and control, and can be updated via software upgrades to ensure support of Klimax DS developments, safeguarding your system for the future.

The Klimax DS completes the Klimax System – the ultimate manifestation of precision engineered performance and beauty.
